

AFFIDAVIT OF STEPHEN NAYLOR

I, Stephen Naylor, state:

1. I earned my Ph.D. in Analytical Biochemistry (Mass Spectrometry) at the University of Cambridge, UK and was an NIH Postdoctoral Fellow at the Massachusetts Institute of Technology.
2. Between 1991 and 2001, I served in several capacities at the Mayo Clinic/Foundation in Rochester, MN. I was the founding director of the clinic's Biomedical Mass Spectrometry and Functional Proteomics Facility; and I was a tenured Professor of Biochemistry and Molecular Biology, and Professor of Molecular Pharmacology and Experimental Therapeutics. I was also Adjunct Professor of Clinical Pharmacology, as well as Professor of Biomedical Engineering (Molecular Biophysics).
3. I was Adjunct Professor of Genetics and Genomics at Boston University School of Medicine (Boston, MA) from 2002 to 2005, as well as a Visiting Faculty Member in the Division of Biological Engineering at MIT (Cambridge, MA) and a Visiting Faculty Member of the Computational Systems Biology Initiative (CSBi) also at MIT, from 2003 to 2004.
4. I am currently the Founder, CEO and Chairman of MaiHealth Inc., a molecular bioprofile diagnostics company.
5. While I was at the Mayo Clinic, I collaborated with Dr. Gerald Gleich in research related to the EMS epidemic caused by L-tryptophan supplements manufactured by Showa Denko KK. Our primary interests were in the structure determination of all six case-associated contaminants of Showa Denko L-tryptophan. One of our studies resulted in the structure determination of the case-associated contaminant referred to as AAA. It determined that this substance was formed by the fusion of the L-tryptophan (LT) molecule (minus a single hydrogen atom) with a long chain hydrocarbon derived from a fatty acid that is common in bacteria.
6. I have communicated extensively about the results of this research with Steven Druker and have authorized him to report on it. Further, I have reviewed the report in Chapter Three of his book, *Altered Genes, Twisted Truth*, and have found it to be accurate in all respects.

Signed this 31st day of October, 2014.
